SP_1927

25X1A

The services	and equipment being procured by this Contract No	
	are in furtherance of the	_
	of which cannot be publicly disclosed for security rea-	
sons. The Contracting	; Officer therefore determines that this procurement must	;
be accomplished by neg	otiations pursuant to the authority of Section 3(a) of	
PL 81-110 and Class De	termination and Finding, OXC 2122, signed by the DDCI on	1
15 October 1961.		

Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956 which, in effect, results in all covert expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 8(b) of Public Law 110, 81st Congress (formerly 10(b) - see 85-507 dated 7/7/58) for each contract.

The following comments describe the procurement hereby effected, the terms and provisions generally of this contract/amendment, and a resume of major issues negotiated:

This contract covers a feasibility study leading to a design competition for a final aircraft - optical system configuration. The airframe Contractors are Lockheed Aircraft Corporation and General Dynamics, Fort Worth, Texas. The optical companies are Itek, Perkin and Elmer, and Hycon Mfg. Company.

This company was given oral go ahead on 29 June 1964. The contract is backdated to 12 February 1964 to pick up preliminary cost incurred in response to technical consultation.

The contract price is subject to retroactive price redetermination. Upward limitation provides for a maximum contract amount of the contract reads in part as follows:

"It is agreed that in the event the total of all costs are less than such contract price,..., the Contractor shall be allowed to retain the difference between the contract price and total costs up to a maximum of of the contract price. In no event shall the final price exceed

A few examples of how this would work are as follows:

CONTRACT

SP_1927

Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956 which, in effect, results in all covert expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 8(b) of Public Law 110, 81st Congress (formerly 10(b) - see 85-507 dated 7/7/58) for each contract.

The following comments describe the procurement hereby effected, the terms and provisions generally of this contract/amendment, and a resume of major issues negotiated:

25X1A

If the contract claimed target cost the final amount could be as follows:

Target costs
Maximum Profit - 25X1A 25X1A

Since this is a competitive contract, it is felt that the clause quoted above is acceptable for this purpose. The Contractor has been advised however that use of this clause is not acceptable under CT_22 where larger sums of money are involved.
